SPECIAL NOTE: It is now possible to obtain all types of office furniture through Surplus War Property. Most of the furniture that can be obtained is wood either in oak or walnut. Some steel is being released. The volume will undoubtedly increase. We have on hand hundreds of orders from cooperatives for office furniture but most of these orders are quite old. We hesitate to fill the back orders not knowing whether or not the cooperatives have been able to obtain their needs in the interim. It is requested that all cooperatives needing office furniture send us new orders so as to bring our records up to date. This information is needed so that we can especially determine how much wood furniture to request from the War Assets Administration. We are particularly interested in the needs for wood arm and straight back chairs and wood tables, executive desks and typewriter desks.
